## SDI-12 Support Group News

### Web-Site Refreshed

The SDI-12 Support Group's web-site has been redesigned and refreshed. Please visit it at [www.sdi-12.org](http://www.sdi-12.org). Comments about the new web-site are welcome.

### SDI-12 Specification Revised

A revised version of the SDI-12 Specification (dated January 3, 2012) is ready. The version number is still 1.3 because clarifications only were made to the specification.

All changes made to the SDI-12 specification are listed on [www.sdi-12.org](http://www.sdi-12.org) and in Appendix D of the specification.

The most significant revision is a correction on the SDI-12 Sensor Flow Control diagram in appendix B. It was changed so that the logic for the concurrent command matches the text in the body of the specification.

You can download copies of the specification from the new web-site.

### 2012 Dues

We are now requesting dues payments in the amount of \$300.00 for the remainder of the calendar year. Your dues payment of \$300.00 would be most appreciated. (Our last request for dues payment was in the fall of 2010.) Your dues help to promote SDI-12 and to maintain the specification.

If you are not currently a member of the Support Group, please join us. Upon receipt of your dues your company will be listed as member on our web-site, your company will have a vote on any proposed changes to the specification, and your company may propose changes to the specification.

A dues payment form is included with this newsletter.
